PROJECTS

Project Name: E-commerce website

Role: Web developer

Project Duration: 1 Month

Project Detail

It is a construction materials selling website created using WordPress. This project is a part of my internship in which I have to manage the website and have to do the SEO of different pages of the website.

Project Name: Weather website

Project Detail

It is a dynamic and user-friendly weather website designed with HTML, CSS, and JavaScript, powered by real-time data fetched from an API. WeatherWeb is your go-to source for up-to-date weather information, all wrapped in a seamless web experience

Project Name: Portfolio Website

Project Detail

This project is my personal portfolio Website which is completely created from HTML, CSS and JavaScript. This website is the showcase of my skills and experience.

Project Name: Calculator

Project Detail

I made the calculator completely using HTML, CSS and JavaScript for simple calculations like addition, subtraction, multiplication, and division.
